PROFESSIONAL EXPERIENCE

- | | |
|---------------------------------------|---|
| Feb 2024 – Jul 2024
Lagos, Nigeria | Cloud Engineer (High Performance Computing) Intern
<i>Chevron Nigeria Limited</i> <ul style="list-style-type: none">Assisted in deploying 72 new HPC Supermicro workstations to enhance user experience and optimize infrastructure performance.Provided troubleshooting support for RHEL Linux desktops.Monitored and addressed alert messages using PRTG.Provided technical support for workstations and managed system moves and decommissioning.Ensured compliance of HPC workstation blades. |
| Feb 2025 – present | Backend Developer
<i>Nomira</i> <ul style="list-style-type: none">Successfully set up the Node.js backend and implemented user Login and Delete functionality.Deployed backend server to cloud infrastructureIntegrated a Django API into Node.js API |
| Aug 2024 – present | Backend Developer
<i>Self-Learning</i> <ul style="list-style-type: none">Built various projects as I increased my skills.Collaborated with other developers on GitHub. |

EDUCATION

- | | |
|--|---|
| Oct 2022 – Jul 2025
Ilishan-remo, Nigeria | Computer Science (Information Systems)
<i>Babcock University</i>
4.76/5.0 CGPA |
|--|---|

SKILLS

Node.JS with Express (handling requests, routing, API authentication using postman)

MongoDB & Mongoose (Creating DBs, collections, models etc...)

C++ (Object Oriented Programming)

Tailwind CSS

Embedded JavaScript Templates (EJS)

PROJECTS

E-commerce API

A scalable RESTful API built for a fictional crochet store, handling product listings, user authentication, and cart operations. Designed with modular architecture and secure access control using JWT.

Incident Reporting Management System

This project showcases my knowledge in Node JS with Express, MongoDB, routing, EJS, JavaScript, and logical thinking.

Simple Blog

Showcases my knowledge in authentication and authorization, clean working architecture/structure (MVC), and in assigning user roles

Password Generator

This project showcases my knowledge of JavaScript and its methods

CERTIFICATES

- | | |
|--|--|
| • Africa Agility certificate of completion  | • Web Development with Angela Yu - Udemy  |
| • Complete Linux Training Course - Udemy  | |
